

BE-SF-PS (Pisseur; Manneke Pis)

Fragments of Pipe clay figures modelled Pisseur (Manneke Pis) are frequently found in Flandres (Belgium). These items were used as a shooting figurine at fairs. Finds of these figurines are known from the following cities in Flandres:

- **Antwerpen** (see BE-SF-PS3 below);
- **Bornem** (see BE-SF-PS4 below)
- **Kampenhout**;
- **Lommel**;
- **Mechelen** (see BE-SF-PS5 below);
- **Middelburg (Belgium)**; a large amount of shooting figures were found during excavations for a high-voltage connection for Elektrabel in Middelburg (Belgium). Source: Agentschap Onroerend Erfgoed.
- **Turnhout**; known excavated figurines from this city are flatter and less detailed than the known figurines excavated in Antwerpen/Mechelen (e-mail Johan Dils, Mechelen, d.d. 4th January 2012).
